

# Contents

- 1** **New taxa of *Plagiothecium* (Plagiotheciaceae) from Pakistan**  
Grzegorz J. Wolski, Aamir Shehzad Khan, Beata Paszko
- 17** ***Gelidocalamus albozonatus* (Poaceae, Bambusoideae), a new species from the southeast of Chongqing, China, and analysis of the morphological diversity in the core group of *Gelidocalamus***  
Yong-Long Li, Rong Guo, Hong-Jing Zhang, Si-Rong Yi, Guang-Yao Yang, Wen-Gen Zhang
- 29** ***Melanoseris kangdingensis* (Lactucinae, Cichorieae, Asteraceae), a new species reported from western Sichuan, China**  
Qian-Qian Zhong, Ze-Huan Wang, Jia-Ju Xu, Qin-Wen Sun
- 39** **A new species of *Cotoneaster* (Rosaceae) from western Sichuan, China**  
Mingwan Li, Dan Li, Mengfei Lu, Shuangfeng Mo, Shen Ding, Yuanyuan Chen, Yong Lai, Dangquan Zhang, Wenbo Liao, Qiang Fan
- 53** ***Eugenia sarahchazaroi* (Myrtaceae, Myrteae), a new species from the cloud forest of Mexico**  
Antonio Francisco-Gutiérrez, Miguel Cházaro-Basáñez, Rodrigo Carral-Domínguez, Héctor Narave-Flores, Luis Islas-Tello
- 65** ***Rhynchospora mesoatlantica* (Cyperaceae), an imperiled new species of beaksedge from eastern U.S.A.**  
Amanda Treher Eberly, Robert F. C. Naczi
- 83** **An integrative approach to species delimitation sinks three Chinese limestone karst *Elatostema* (Urticaceae) species**  
Zi-Bing Xin, Alexandre K. Monro, Ren-Fen Wang, Long-Fei Fu
- 97** **A new species of *Casearia* Jacq. (Salicaceae) from Central Panama and insights into its phylogenetic position within the genus**  
Astrid de Mestier, Ernesto Campos Pineda, Marco Cedeño Fonseca, Orlando O. Ortiz
- 113** ***Vaccinium chaozhouense* (Ericaceae), a new species from East Guangdong, China**  
Yi-Hua Tong, Pei-Zhao Ye, Jian-Hong Ding, Wei-Chao Huang, Wei Huang, Jing-Bo Ni
- 121** **Molecular and morphological evidence for a new species of *Stachys* (Lamiaceae) from Hunan, China**  
Ling Xue, Jia-Hua Cai, Min Zhan, Xiao-Ping Li, Lei Wu, Ya-Ping Chen
- 135** ***Primula lizipingensis* (Primulaceae), a new species from Sichuan, China**  
Wen-Bin Ju, Liu-Yang He, Qi Lan, Ying-Hao Wu, Heng-Ning Deng, Xing-Jin He, Xin-Fen Gao, Bo Xu
- 145** **The first epiphytic species of *Valeriana* in the world: *Valeriana rudychazaroi* (Caprifoliaceae)**  
Antonio Francisco-Gutiérrez, Miguel Cházaro-Basáñez, Rodrigo Carral-Domínguez
- 157** ***Erica* L. (Ericaceae): homonyms amongst published names for African species and proposed replacement names**  
E. Charles Nelson, E. G. H. Oliver, Michael D. Pirie
- 179** **Lectotypification of two names of *Carex buekii* hybrids (Cyperaceae) and notes on their morphology, ecology and distribution**  
Helena Więclaw, Radomír Řepka, Jacob Koopman
- 187** ***Vaccinium usneoides* (Ericaceae), a new species from Yunnan, China**  
Yong-Jie Guo, Ting Zhang, Ji-Dong Ya, Wei Zhang, Xiu-Ying Shen, Zhou-Dong Han, Jing-Bo Ni, Jian-Yong Su, Yi-Hua Tong
- 197** **Distribution and morphology of the diatom genus *Olifantiella* Riaux-Gobin & Compère in Indonesian and Australian waters, including the description of *O. gondwanensis* sp. nov.**  
Mateusz Rybak, Sulastri Arsad, Catherine Riaux-Gobin, Oktiyas Muzaky Luthfi, Gustaaf Hallegraeff, Renata Cias, Agnieszka Kierzek, Andrzej Witkowski
- 215** **The History and introduction of the Daurian Lily *Lilium pensylvanicum* and the new combination *L. pensylvanicum* var. *alpinum* (Liliaceae)**  
James A. Compton, Andrej K. Sytin

*Vaccinium usneoides* Y.H.Tong, Y.J.Guo & Ting Zhang, sp. nov.

For those who want their work rapidly known to the World !

#### FOCUS AND SCOPE

**PhytoKeys** is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of angiosperms, gymnosperms, monilophytes, bryophytes, and algae. **PhytoKeys** aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. **PhytoKeys** will publish papers in systematic botany containing taxonomic/floristic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

**PhytoKeys** will consider for publishing works on the following topics:

- descriptions of new taxa, if they are accompanied with proper diagnoses, keys and/or distinction from close relatives or similar taxa
- taxonomic revisions of extant (or "recent") and fossil plant groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conspecti, atlases
- collections of papers, Festschrift volumes, conference proceedings

Papers containing identification keys will be accepted with priority. Extensive manuscripts consisting mostly of keys will be considered for publishing as well.

ISBN numbers will be assigned to large monographic papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the *Creative Commons Attribution License*, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

#### AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript *only* through the online submission module at [www.phytokeys.com](http://www.phytokeys.com). In case of difficulties with the submission procedure, please contact [phytokeys@pensoft.net](mailto:phytokeys@pensoft.net). Full text of author guidelines is available at: <http://phytokeys.pensoft.net/about#AuthorGuidelines>

#### EXCERPTS FROM THE GUIDELINES

**BODY TEXT.** All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

**WEB (HTML) LINKS.** Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a webpage, please include the **http://** portion of the address.

**CITATIONS WITHIN THE TEXT.** Citations within the text: Before submitting the manuscript, please check each citation in the text against the **References** and vice-versa to ensure that they match exactly. Citations in the text should be formatted as follows: Smith (1990) or (Smith 1990), Smith et al. (1998) or (Smith et al. 1998) and (Smith et al. 1998, 2000; Brock and Gunderson 2001; Felt 2006).

**REFERENCES.** It is important to format the references properly, because all references will be linked electronically as completely as possible to the papers cited. It is desirable to add a DOI (digital object identifier) number for either the full-text or title and abstract of the article as an addition to traditional volume and page numbers. If a DOI is lacking, it is recommended to add a link to any online source of an article. Please use the following style for the reference list:

**Published Papers:** Smith AR, Pryer KM, Schuettpelz E, Korall P, Schneider H, Wolf PG (2006) A classification for extant ferns. *Taxon* 55(3): 705–731.

**Accepted Papers:** Same as above, but "in press" appears instead the year in parentheses.

**Electronic Journal Articles:** Agosti D, Egloff W (2009) Taxonomic information exchange and copyright: the Plazi approach. *BMC Research Notes* 2: 53. <https://doi.org/10.1186/1756-0500-2-53>

**Paper within conference proceedings:** Kress WJ, Specht CD (2005) Between Cancer and Capricorn: phylogeny, evolution, and ecology of the tropical Zingiberales. In: Friis I, Balslev H (Eds) Proceedings of a symposium on plant diversity and complexity patterns – local, regional and global dimensions. *Biologiske Skrifter, The Royal Danish Academy of Sciences and Letters, Copenhagen*, 459–478.

**Book chapters:** Mayr E (2000) The biological species concept. In: Wheeler QD, Meier R (Eds) *Species Concepts and Phylogenetic Theory: A Debate*. Columbia University Press, New York, 17–29.

**Books:** Heywood VH, Brummitt RK, Culham A, Seberg O (2007) *Flowering Plant Families of the World*. Kew Publishing, 1–424.

**Book with institutional author:** International Commission on Zoological Nomenclature (1999) *International code of zoological nomenclature*. Fourth Edition. London: The International Trust for Zoological Nomenclature.

**PhD thesis:** Stahlberg D (2007) Systematics, phylogeography and polyploid evolution in the *Dactylorhiza maculata* complex (Orchidaceae). PhD Thesis, Lund University, Sweden.

**Link/URL:** BBC News: Plants 'can recognise themselves'. [http://news.bbc.co.uk/earth/hi/earth\\_news/newsid\\_8076000/8076875.stm](http://news.bbc.co.uk/earth/hi/earth_news/newsid_8076000/8076875.stm)

**CITATIONS OF PUBLIC RESOURCE DATABASES:** It is highly recommended all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version numbers, if appropriate).

Examples of such databases include, but are not limited to:

- IPNI ([www.ipni.org](http://www.ipni.org))
- Morphbank ([www.morphbank.net](http://www.morphbank.net))
- Genbank ([www.ncbi.nlm.nih.gov/Genbank](http://www.ncbi.nlm.nih.gov/Genbank))
- BOLD ([www.barcodinglife.org](http://www.barcodinglife.org))

Providing accession numbers to data records stored in global data aggregators allows us to link your article to established databases, thus integrating it with a broader collection of scientific information. Please hyperlink all accession numbers through the text or list them directly **after the References** in the online submission manuscript.

**INTERNATIONAL CODE OF NOMENCLATURE FOR ALGAE, FUNGI, AND PLANTS.** **PhytoKeys** will publish papers that strictly adhere the rules of the last edition of the *International Code of Nomenclature for algae, fungi, and plants*. Descriptions of new taxa (species and below) should include the following: 1) a short Latin diagnosis followed by a full description in English, 2) an illustration (line drawing or photograph) clearly showing the diagnostic characters, 3) a comparison of the new taxon with related taxa, a diagnostic key to identification of species-group members, or at least to the closest relatives is highly desirable and may be requested by the editors 4) a discussion of the distinctive morphological characteristics, ecology, geography, and/or reproductive biology, and 5) a statement on preliminary [at least] conservation status for the taxon being described.

**OPEN ACCESS FEES.** Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee. Please visit the "Article Processing Charges" section at <http://phytokeys.pensoft.net/about#ArticleProcessingCharges> to learn more of our discount and waiver policies.

**PRINTED VERSION.** Offprints and printed issues of the journal can be purchased additionally (see journal's website). For standing orders/subscriptions please contact the Managing Editor.
