Contents

1 **Reinstatement of the independent specific status of *Camellia angustifolia*, a tea plant (*Camellia* sect. *Thea*, Theaceae) from Guangxi, China**
Huiqun Deng, Xianjun Liao, Xiangqin Yu, Zhusheng Liu, Shixiong Yang

9 ***Thismia selangorensis* (Thismiaceae): a new mitriform fairy lantern species from Selangor, Malaysia**
Mat Yunoh Siti-Munirah, Tan Gim Siew, Mohd Faizal Mat-Tahir, Ahmad Azhar

23 ***Paraphlomis leigongshanensis* (Lamiaceae), a new species from Guizhou, China**
Wei-Hao Yao, Guo-Bin Jiang, De-Hui Yu, Sheng Chen, Hong-Mei Chen, Li Dai, Bai-Qiu He, He Li

37 ***Doronicum micranthum* (Asteraceae, Senecioneae): a distinct new species from western Qinling, China**
Zengfu Bai, Guiyuan Zhang, Zhihua Zhang, Anzhong Li, Hao Li, Geyang Wang, Xuelin Chen, Ji Zhang

43 **Taxonomic status of *Orophea yunnanensis* (Annonaceae), an endemic plant species in Yunnan, China**
Bin Yang, Yun-Juan Zuo, You-Bing Wang, Chang-Ji Yang, Yong-Jie Guo, Hong-Bo Ding, Yun-Hong Tan

59 **Taxonomic and nomenclatural history of *Neckera* (Bryophyta, Neckeraceae), including reinstatement of *Rhystophyllum*, the correct name for a segregate of this genus**
Ryszard Ochyra, Vítězslav Plášek, John C. Brinda

81 ***Acronema handeloides*, a new species from Jiaozi Mountain, Yunnan Province, China (Apiaceae)**
Xu-Dong Ma, Hui-Min Li, Ying Xie, Jun-Wen Zhu, Jun Wen, Wei Zhou, Bao-Cheng Wu, Chun-Feng Song

93 **A new species of *Clematis* sect. *Tubulosae* (Ranunculaceae) from Zhejiang, East China**
Pan Xu, Jun-Ping Li, Xian-Ting Wang, Fen-Yao Zhang, Wei-Qing Liang, Wen-Yuan Xie, Li-Peng Yu, Feng Chen, Ke-Lang Lou, Jian-Ping Zhong, Jin-Bao Pu, Zheng-Hai Chen

109 **Land of giants: two new pachycaul *Monstera* (Araceae, Monsteroideae, Monstereae) from Panama**
Marco Cedeño-Fonseca, Orlando O. Ortiz, Alistair Hay, Alejandro Zuluaga

123 **Checklist of the Cucurbitaceae of Madagascar**
Minosoa B. Andriamiharisoa, Edgardo M. Ortiz, Tendro Radanielina, Hanno Schaefer

223 ***Viola yuelingensis* (Violaceae), a new species from Guangxi, China**
Ju-Hua Huang, Jian-Hua Zhang, You-Sheng Chen

233 ***Mycetia saxicola* (Rubiaceae), a new species with cauliflory from limestone areas in Yunnan, China, supported by morphological and molecular data**
Zhuqiu Song, Buyun Zhang, Xiaokai Xiong, Dongxian Xu

249 **Typifications of 42 Mesoamerican names in Gesneriaceae, illustrated with type specimens and field images**
Fred R. Barrie, Laurence E. Skog, John L. Clark, Kimberly Hansen

309 **Taxonomy, morphology and cytology of *Micranthes virginiensis* (Michaux) Small (Saxifragales, Saxifragaceae), new chromosome counts for *Micranthes* and description of a new *Micranthes* species from the south-eastern USA**
Tara K. Hall, Luiz F. L. da Silveira, Max S. Lanning, Katherine G. Mathews

345 **Determining the best morphological characters for taxonomic identification of *Inga* species in the Colombian Andes using correlation, entropy and a discriminant index**
Kelly T. Bocanegra-González, Thomas S. Prieto-González, Martin Pullan, Kyle G. Dexter, Hannah Atkins, R. Toby Pennington

361 ***Middletonia tiepiana* (Gesneriaceae), a new species from southern Vietnam**
Tran Quoc Trung Nguyen, Hieu Cuong Nguyen, Xuan Bach Nguyen-Le, Cong Luan Tran, Thanh Trung Nguyen, Hong Truong Luu

Focus and Scope

PhytoKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free information exchange in taxonomy, phylogeny, biogeography and evolution of angiosperms, gymnosperms, monilophytes, bryophytes, and algae. **PhytoKeys** aims to apply the latest trends and methodologies in publishing and preservation of digital materials to meet the highest possible standards of the cybertaxonomy era. **PhytoKeys** will publish papers in systematic botany containing taxonomic/floristic data on any taxon of any geological age from any part of the world with no limit to manuscript size.

PhytoKeys will consider for publishing works on the following topics:

- descriptions of new taxa, if they are accompanied with proper diagnoses, keys and/or distinction from close relatives or similar taxa
- taxonomic revisions of extant (or "recent") and fossil plant groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conspecti, atlases
- collections of papers, Festschrift volumes, conference proceedings

Papers containing identification keys will be accepted with priority. Extensive manuscripts consisting mostly of keys will be considered for publishing as well.

ISBN numbers will be assigned to large monographic papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.

All content is Open Access distributed under the terms of the *Creative Commons Attribution License*, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

AUTHOR GUIDELINES

Authors are kindly requested to submit their manuscript *only* through the online submission module at www.phytokeys.com. In case of difficulties with the submission procedure, please contact phytokeys@pensoft.net. Full text of author guidelines is available at: http://phytokeys.pensoft.net/about#AuthorGuidelines

Excerpts from the Guidelines

Body Text. All papers must be in English, checked by a native English-speaking colleague (if author(s) is/are not native English speaker(s)). Write with precision, clarity, and economy: use the active voice and first person whenever appropriate.

Web (HTML) links. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the **http://** portion of the address.

Citations within the text. Citations within the text: Before submitting the manuscript, please check each citation in the text against the **References** and vice-versa to ensure that they match exactly. Citations in the text should be formatted as follows: Smith (1990) or (Smith 1990), Smith et al. (1998) or (Smith et al. 1998) and (Smith et al. 1998, 2000; Brock and Gunderson 2001; Felt 2006).

References. It is important to format the references properly, because all references will be linked electronically as completely as possible to the papers cited. It is desirable to add a **DOI** (digital object identifier) number for either the full-text or title and abstract of the article as an addition to traditional volume and page numbers. If a DOI is lacking, it is recommended to add a link to any online source of an article. Please use the following style for the reference list:

Published Papers: Smith AR, Pryer KM, Schuettpelz E, Korall P, Schneider H, Wolf PG (2006) A classification for extant ferns. Taxon 55(3): 705–731.

Accepted Papers: Same as above, but "in press" appears instead the year in parentheses.

Electronic Journal Articles: Agosti D, Egloff W (2009) Taxonomic information exchange and copyright: the Plazi approach. BMC Research Notes 2: 53. https://doi.org/10.1186/1756-0500-2-53

Paper within conference proceedings: Kress WJ, Specht CD (2005) Between Cancer and Capricorn: phylogeny, evolution, and ecology of the tropical Zingiberales. In: Friis I, Balslev H (Eds) Proceedings of a symposium on plant diversity and complexity patterns – local, regional and global dimensions. Biologiske Skrifter, The Royal Danish Academy of Sciences and Letters, Copenhagen, 459–478.

Book chapters: Mayr E (2000) The biological species concept. In: Wheeler QD, Meier R (Eds) Species Concepts and Phylogenetic Theory: A Debate. Columbia University Press, New York, 17–29.

Books: Heywood VH, Brummitt RK, Culham A, Seberg O (2007) Flowering Plant Families of the World. Kew Publishing, 1–424.

Book with institutional author: International Commission on Zoological Nomenclature (1999) International code of zoological nomenclature. Fourth Edition. London: The International Trust for Zoological Nomenclature.

PhD thesis: Stahlberg D (2007) Systematics, phylogeography and polyploid evolution in the *Dactylorhiza maculata* complex (Orchidaceae). PhD Thesis, Lund University, Sweden.

Citations of Public Resource Databases: It is highly recommended all appropriate datasets, images, and information to be deposited in public resources. Please provide the relevant accession numbers (and version numbers, if appropriate).

Examples of such databases include, but are not limited to:

- IPNI (www.ipni.org)
- Morphbank (www.morphbank.net)
- Genbank (www.ncbi.nlm.nih.gov/Genbank)
- BOLD (www.barcodinglife.org)

Providing accession numbers to data records stored in global data aggregators allows us to link your article to established databases, thus integrating it with a broader collection of scientific information. Please hyperlink all accession numbers through the text or list them directly **after the References** in the online submission manuscript.

International Code of Nomenclature for algae, fungi, and plants. PhytoKeys will publish papers that strictly adhere the rules of the last edition of the *International Code of Nomenclature for algae, fungi, and plants*. Descriptions of new taxa (species and below) should include the following: 1) a short Latin diagnosis followed by a full description in English, 2) an illustration (line drawing or photograph) clearly showing the diagnostic characters, 2) a comparison of the new taxon with related taxa, a diagnostic key to identification of species-group members, or at least to the closest relatives is highly desirable and may be requested by the editors 3) a discussion of the distinctive morphological characteristics, ecology, geography, and/or reproductive biology, and 4) a statement on preliminary [at least] conservation status for the taxon being described.

Open Access Fees. Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee. Please visit the "Article Processing Charges" section at http://phytokeys.pensoft.net/about#ArticleProcessingCharges to learn more of our discount and waiver policies.

Printed Version. Offprints and printed issues of the journal can be purchased additionally (see journal's website). For standing orders/subscriptions please contact the Managing Editor.
