The week-long discussions and decisions of the Nomenclature Section of the XVIII International Botanical Congress took place in Melbourne, Australia in July 2011. This meeting is held every six years and it is where the world’s premier experts on the rules for naming algae, fungi and plants get together to debate and update the International Code of Nomenclature for algae, fungi, and plants. The resulting Melbourne Code was published in 2012. This is the official report of the proceedings of the meeting for the historical record covering the debate and decisions taken. It conveys a true and lively picture of the event, retaining the flavour of goodwill and humour that permeated the Section.
For those who want their work rapidly known to the World!

Focus and Scope
PhytoKeys is a peer-reviewed, open-access, rapidly disseminated journal launched to accelerate research and free access to knowledge in taxonomy, phylogeny, biogeography, and evolution of angiosperms, gymnosperms, monilophytes, bryophytes, and algae. PhytoKeys aims to apply the highest possible standards of the cybertaxonomy era. PhytoKeys will publish papers in systematic botany containing taxonomic/orist data on any taxon of any geological age from any part of the world with no limit to manuscript size.

PhytoKeys will consider for publishing works on the following topics:

- descriptions of new taxa, if they are accompanied with proper diagnoses, keys and/or distinction from close relatives or similar taxa
- taxonomic revisions of extant (or "recent") and fossil plant groups
- checklists and catalogues
- phylogenetic and evolutionary analyses
- papers in descriptive and/or historical biogeography
- methodology papers
- data mining and literature surveys
- monographs, conспектi, atlases
- collections of papers, Festschrift volumes, conference proceedings

Authors are kindly requested to submit their manuscript only through the online submission module at www.phytokeys.com. In case of difficulties with the submission procedure, please contact phytokeys@pensoft.net. Full text of author guidelines is available at: http://www.phytokeys.com

EXCEPTS from the GUIDELINES

Body Text. All papers must be in English, checked by a native English-speaking colleague (if authors’ is/are not native English speaker(s)). Write with precision, clarity, and economy; use the active voice and first person whenever appropriate.

Web (HTML) texts. Authors may include links to other Internet resources in their article. This is especially encouraged in the reference section. When inserting a reference to a web-page, please include the last portion of the address.

Citations within the text. Citations within the text: Before submitting the manuscript, please check each citation in the text against the References and vice-versa to ensure that they match exactly. Citations in the text should be formatted as follows: Smith (1990) or (Smith, 1990). Smith et al. (1998) or (Smith et al. 1998) and (Smith et al. 1998, 2000, Bock and Gunderson 2001, Feb 2006).

References. It is important to format the references properly, because all references will be linked electronically as completely as possible to the papers cited. It is desirable to add a DOI (digital object identifier) number for either the full-text or title and abstract of the article as an addition to traditional volume and page numbers. If a DOI is lacking, it is recommended to add a link to any online source of an article. Please use the following style for the reference list:

Accepted Papers: Same as above, but in "press" appears instead the year in parentheses.

Citations of PUBLIC RESOURCE DATABASES: It is highly recommended all appropriate databases, images, and information to be deposited in public libraries. Please provide the relevant accession numbers (and version numbers, if appropriate). Examples of such databases include, but are not limited to:

- IPNI (www.ipni.org)
- Morphbank (www.morphbank.net)
- BOLD (www.barcodinglife.org)

Providing accession numbers to data records stored in global data aggregators allows us to link your article to established databases, thus integrating it with a broader collection of scientific information. Please hyperlink all accession numbers through the text or list them directly after the References in the online submission manuscript.

License
All content is Open Access distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited. Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

Authors are thus encouraged to post the pdf files of published papers on their homepages or elsewhere to expedite distribution.

OPEN ACCESS FEES. Publication fees in open access journals ensure a barrier-free distribution of your paper at no charge for the readers and include costs involved in processing, formatting, publishing, indexing and archiving your paper.

The journal charges Open Access Publication Fee of EUR 15 per page for papers of less than 100 printed pages. Please visit the “Discounts and Waivers” section at http://www.phytokeys.com to learn more of our discount and waiver policies.

PRINTED VERSION. Offprints and printed issues of the journal can be purchased additionally (see journal’s website). For standing orders/subscriptions please contact the Managing Editor.

ISBN numbers will be assigned to large monographic papers (i.e., major revisions of taxa), monographs, collections of papers, Festschrift volumes, atlases, checklists, conspecti.
